Golden Harvest Turkeys

With the holidays just around the corner, make them memorable with a Golden Harvest Turkey.

Raised naturally with no hormones, steroids, antibiotics, or preservatives, and fed a wholesome diet free of animal by-products, these turkeys deliver a pure, flavorful taste that shines at the holiday table.

Reserve yours at our meat counter today and bring home a centerpiece worthy of the season.

Brine Instructions:

Choose your desired Frazier Farms turkey.

Choose your brine.

(Give our house-made Chamomile Orange Brine a try!)

Prepare your brine by heating your water, sugar, and salt until dissolved.

Make sure brine is ice cold before adding turkey to it.

Remove turkey from packaging, be sure to remove giblet bag and neck, make sure to check both cavities.

Submerge bird in brine for 24 hours.

After 24 hours, pull turkey from brine and discard brine.

Pat turkey dry inside and out.

Follow cooking instructions.

Turkey Cooking Times:

| 8-12 lbs. | 3-4 hours |
|------------|-----------|
| 12-16 lbs. | 4-5 hours |
| 16-20 lbs. | 5-6 hours |
| 20-24 lbs. | 6-7 hours |
| 24-28 lbs. | 7-8 hours |

Cooking Instructions:

Choose your desired Frazier Farms turkey.

Remove from packaging and pat turkey dry inside and out.

We recommend inserting half of an onion, a few stalks of celery, a carrot, whole fresh citrus of your choice, and fresh herbs such as thyme or oregano.

Fold neck skin back and pin it with a skewer to body.

Truss legs down and tuck them under skin band. Make sure to twist the wings back and tuck them under the body to keep them from overcooking or burning.

Rub entire turkey with a coarse ground salt and pepper to taste.

Place turkey in a shallow braising or roasting pan.

If you have a wire rack, place under the turkey. This is highly recommended for even air flow around the bird.

Baste turkey every 45 minutes to an hour over the entire cooking time with butter, margarine also works.

In the event the turkey is browning too fast, place a piece of loosely wrapped foil over the breast.

Roast turkey at 325 degrees until the meat thermometer reads 165 degrees placed in the largest part of the turkey thigh.

Let turkey rest for 45 minutes.

We do not recommend cooking your turkeys with stuffing inside, but if you choose to do so, cook times should be increased by 30 minutes on the scale.

USDA Choice Prime Rib Roast

Savor the exceptional quality of USDA Choice Angus Beef, the second highest grade of beef, distinguished for its superior marbling and rich flavor. Raised naturally without antibiotics, added hormones, or artificial ingredients. Our Angus delivers a dining experience you can feel good about.
